Follow Us Section and More Styling | Cheat Sheet

1. Adding Icons

There are a limited number of Icon choices in Bootstrap icons. Since we don't have the desired icons in Bootstrap Icons, we use Font Awesome Icons.

1.1 Font Awesome Icons

To use the Font Awesome Icons, you need to add the below Font Awesome Icons Kit Code in the HTML `head` element.

```
1 <script src="https://kit.fontawesome.com/20c5629a29.js" crossorigin="anonymous"></script>
```

```
1 <!DOCTYPE html>
2 <html>
3 <head>
4 <link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.5.0/css/bootstrap.min.css">
5 <script src="https://code.jquery.com/jquery-3.5.1.slim.min.js"></script>
6 <script src="https://cdn.jsdelivr.net/npm/popper.js@1.16.1/dist/umd/popper.min.js"></script>
7 <script src="https://stackpath.bootstrapcdn.com/bootstrap/4.5.0/js/bootstrap.min.js"></script>
8 <script src="https://kit.fontawesome.com/20c5629a29.js" crossorigin="anonymous"></script>
9 </head>
10 <body>
11 <i class="fab fa-twitter icon"></i>
12 </body>
13 </html>
```

Help

2. Follow Us Section

```
1 <!DOCTYPE html>
2 <html>
3 <head>
4 <link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.5.0/css/bootstrap.min.css">
5 <script src="https://code.jquery.com/jquery-3.5.1.slim.min.js"></script>
6 <script src="https://cdn.jsdelivr.net/npm/popper.js@1.16.1/dist/umd/popper.min.js"></script>
7 <script src="https://stackpath.bootstrapcdn.com/bootstrap/4.5.0/js/bootstrap.min.js"></script>
8 <script src="https://kit.fontawesome.com/20c5629a29.js" crossorigin="anonymous"></script>
9 </head>
10 <body>
11 <div class="follow-us-section pt-5 pb-5">
12 <div class="container">
13 <div class="row">
14 <div class="col-12">
15 <h1 class="follow-us-section-heading">Follow Us</h1>
16 </div>
17 </div>
```

Help

Note

The CSS Property `border-radius` allows you to add circular corners to an HTML element. We need to provide the same height and width to get circular corners else we will get elliptical corners.

3. Adding Links to the Sections

- Adding id to the section to which we want to navigate.

```
i 1 <div class="wcu-section pt-5 pb-5" id="wcuSection">...</div>
```

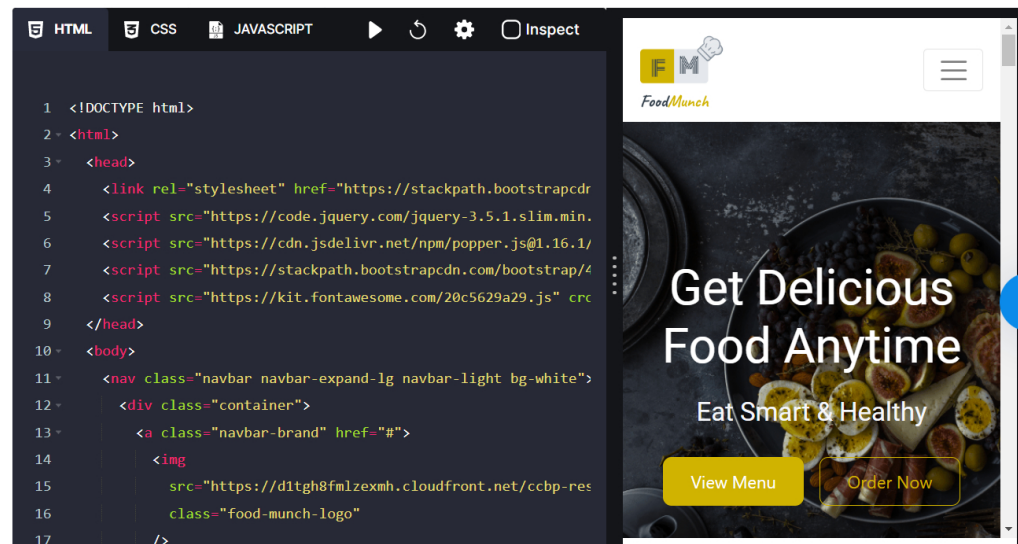

HTML

Help

- Providing id as href Attribute value to the Nav Item.

```
i 1 <a class="nav-link active" id="navItem1" href="#wcuSection">
2   Why Choose Us?
3   <span class="sr-only">(current)</span>
4 </a>
```

HTML

Help

4. Bootstrap Position Utilities

4.1 Fixed Top

The bootstrap class name `fixed-top` positions an HTML element at the top of the viewport irrespective of the scrolling.

```
i 1 <nav class="navbar navbar-expand-lg navbar-light bg-white fixed-top">...</nav>
```

HTML

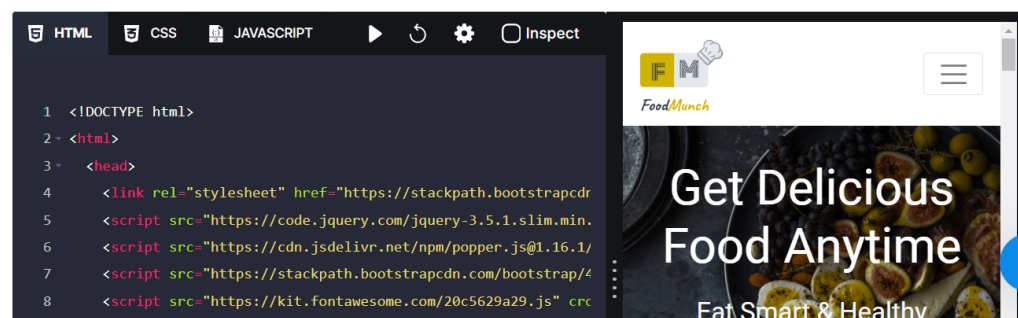

Help

4.2 Fixed Bottom

The bootstrap class name `fixed-bottom` positions an HTML element at the bottom of the viewport irrespective of the scrolling.

```
i 1 <nav class="navbar navbar-expand-lg navbar-light bg-white fixed-bottom">...</nav>
```

HTML

Help

```
9 </head>
10 <body>
11 <nav class="navbar navbar-expand-lg navbar-light bg-white f
12 <div class="container">
13 <a class="navbar-brand" href="#">
14 
```
